DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 and 11-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: The claims are allowable for at least the following reasoning: All of the claims detail generating a client object forming a representation of the target object on the client machine, which the client object is configured to extract methods of the target object which are remotely accessible and support manipulation of properties of the target object wherein the client object is further configured to implement the remotely accessible methods on the client machine. As argued and agreed to in the response, the cited prior art of record at best teaches the exporting interface methods of the target object to a client object herein a proxy. As illustrated in the reference, the proxy has interfaces which have no implementation, therefore, the proxy cannot implement the remotely accessible methods on the client machine. Therefore, the claims are allowable over the cited prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The drawings are objected to because the drawings are too close to the margins for printing. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. The objection to the drawings will not be held in abeyance.

4. The drawings filed on 8/7/00 are acceptable subject to correction of the informalities indicated above. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
